These cookies are cookies that we are in the process of classifying, together with the providers of individual cookies.

3 Some details about some cookies provided by third parties are used on this website

Among the cookies listed above, some are provided by third parties, here is more information about them.

3.1 Data collection by Google Analytics

This website uses Google Analytics, a web analysis service of Google Inc. ("Google"). Google is Privacy Shield certified. Google Analytics uses "cookies", which are text files placed on your computer, and which enable an analysis of your use of the website. The information generated by the cookie about your use of this website is usually transferred to a Google server in the USA and stored there.

However, if IP anonymisation is activated on this website, Google will reduce your IP address within Member States of the European Union or in other countries party to the Agreement on the European Economic Area beforehand. Only in exceptional cases will the full IP address be transmitted to a Google server in the USA and shortened there. We would like to point out that the code "anonymizelp" has been added to Google Analytics on this website in order to guarantee an anonymised version of the IP address.

On behalf of the operator of this website, Google will use this information to evaluate your use of the website, to compile reports on website activity and to provide the website operator with other services relating to website and Internet use. The IP address transmitted by your browser in the context of Google Analytics is not merged with other Google data.

You may refuse the use of cookies by selecting the appropriate settings on your browser, however please note that if you do this you may not be able to use the full functionality of this website. You can also prevent Google from collecting the data generated by the cookie and relating to your use of the website (including your IP address) and from processing this data by Google by downloading and installing the browser plug-in available under the following link: <http://tools.google.com/dlpage/gaoptout?hl=en>. The basis for data processing is Art. 6 par. 1 f) GDPR.

3.2 reCAPTCHA

We use the service reCAPTCHA of Google Inc. ("Google") to protect your inquiries via an internet form. The query serves to differentiate whether the input is made by a human being or abusively by automated, machine processing. The query includes sending the IP address and any other data required by Google for the reCAPTCHA service to Google. For this purpose your input will be transmitted to Google and used there.

However, Google will previously reduce your IP address within member states of the European Union or in other contract states of the Agreement on the European Economic Area. Only in exceptional cases will the full IP address be transmitted to a Google server in the USA and shortened there. On behalf of the operator of this website Google will use this information to evaluate your use of this service. The IP address transmitted by your browser within the scope of reCaptcha is not merged with other Google data. The deviating data protection regulations of Google apply to this data. For more information about Google's privacy policy, please visit: <https://www.google.com/intl/en/policies/privacy/>.

3.3 Google Analytics Remarketing

Our websites use the features of Google Analytics Remarketing combined with the cross-device capabilities of Google AdWords and Google DoubleClick. Provider of this service is Google Inc., 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA. This feature allows you to link the advertising target groups created with Google Analytics Remarketing to the cross-device capabilities of Google AdWords and Google DoubleClick. In this way, interest-based, personalized advertising messages adapted to you based on your previous usage and browsing behavior on one end device (e.g., cell phone) may also be displayed on another of your end devices (e.g., tablet or

PC). Once you have given your consent, Google will associate your web and app browsing history with your Google Account for this purpose. That way, the same personalized advertising messages can appear on any device you sign in to with your Google Account. To support this feature, Google Analytics collects Google-authenticated IDs of users who are temporarily linked to our Google Analytics data to define and create audiences for cross-device ad promotion. You can permanently opt out of cross-device remarketing / targeting by turning off personalized advertising in your Google Account; follow this link: <https://www.google.com/settings/ads/onweb/>. The aggregation of collected data in your Google Account will be solely based on your consent that you may submit or revoke on Google (Art. 6 par. 1 a) GDPR). For data collection operations that are not merged into your Google Account (for example, because you do not have a Google Account or have objected to the merge), the collection of data is based on Art. 6 par. 1 f) GDPR. The legitimate interest arises from the fact that the website operator has an interest in the anonymous analysis of the website visitors for advertising purposes. For more information and privacy policy, see the Google Privacy Policy at: <https://www.google.com/policies/technologies/ads/>.

3.4 Adwords and Google Conversion Tracking

This website uses Google Adwords. AdWords is a Online-Advertisingservice developed by Google Inc., 1600 Amphitheatre Parkway, Mountain View, CA 94043, United States ("Google"). As part of Google AdWords, we use the so-called conversion tracking. When you click on an ad served by Google, a conversion tracking cookie is set. Cookies are small text files created by the Internet browser and stored on the user's computer.

These cookies lose their validity after 30 days and are not used for the personal identification of the users. If the user visits certain pages of this website and the cookie has not expired yet, Google and we can recognize that the user clicked on the ad and was redirected to this page. Each Google AdWords customer receives a different cookie. The cookies can not be tracked through the websites of advertisers.

The information gathered using the conversion cookie is used to generate conversion statistics for AdWords advertisers who have opted for conversion tracking. Customers are told the total number of users who clicked on their ad and were redirected to a conversion tracking tag page. However, they do not receive information that personally identifies users. If you do not want to participate in tracking, you can opt-out of this by easily disabling the Google Conversion Tracking cookie through the Internet browser under User Preferences.

You will not be included in the conversion tracking statistics. The storage of "conversion cookies" is based on Art. 6 par. 1 f) GDPR. The website operator has a legitimate interest in analyzing user behavior in order to optimize both its website and its advertising. For more information about Google AdWords and Google Conversion Tracking, see the Google Privacy Policy: <https://www.google.de/policies/privacy/>.
