Date: 23 October 2015

FAO: the Company Director/Company Secretary

**The Waste Batteries and Accumulators Regulations 2009
Continued Approval as a Battery Compliance Scheme**

In accordance with Regulation 52 (2) (g) ERP UK Ltd submitted an updated operational plan covering the compliance periods 2016 to 2018 on 07 September 2015 and further information on 22 October 2015.

We have completed our assessment of your updated plan and further information, and confirm the continued approval of ERP UK Ltd as a Battery Compliance Scheme under the Waste Batteries and Accumulators Regulations 2009. Your approval notice issued on 30 September 2009 under reference BCS2010755/E remains in force.

We would like to remind you that you must comply with the conditions of approval in regulation 52 of the Regulations which includes notifying us within 28 days of any material changes to your operational plan. Failure to do so may lead to enforcement action and/or withdrawal of your approval.

If you have any queries, please do not hesitate to contact your account manager.

Yours sincerely

Will Smith
